Small Fruit Plants

- FOR THE -

Spring of 1889,

- FOR SALE BY -

T. T. LYON,

- of -

SOUTH HAVEN,

VAN BUREN CO..

MICHIGAN.

DAILY DEMOCRAT BRIDE CRANE DARRES

ANNOUNCEMENT.

- 1. We aim to keep well up with the introduction of promising novelties as they appear, by fruiting them on our own grounds, carefully observing the foliage, bloom and fruit; and thus, by the most thorough tests, establishing the correctness of our stock. By adding to the above the utmost care in digging and handling, we hope to deserve the confidence of our customers.
- Plants will be packed in the very best manner, and delivered at railroad or express without additional charge.
- 3. Five plants of a single variety will be sent at the ten rate; fifty at the hundred rate, and five hundred at the thousand rate; but only in case such rate shall be specified in the list. When prices are omitted it will be understood that the variety is only offered in quantity corresponding with the prices given.
- 4. On cash orders of \$10, or above, calling for not less than twenty-five plants of each variety, we will send at hundred rates; and on orders of \$20, or above, at thousand rates.
- 5. When very large quantities are desired, we invite parties to send lists, and afford us an opportunity to price them. Our prices will be as low as those of any other reputable establishment.

6. When so ordered, plants will be sent by mail, prepaid; but, in such case, the following amounts will be added to catalogue price:

	1	10
	s c.	\$ c.
For Blackberries	.02	.20
For Currants—1 year plants	.02	.20
For Gooseberries—1 year plants	.02	.20
For Grapes—1 year plants	.02	.20
For Raspberries	.02	.20
For Strawberries	Free	Free

- 7. Such orders will usually be filled with smaller plants—the tops will be cut back—and the right is reserved to send by express, prepaid, when it shall be found more economical to do so.
- 8. For loss or damage properly chargable to us, we will, as far as practicable, make amends, if promptly notified. In case of error, omission or injury, notify us at once.
- To insure the best results, order early. If unable to fill the order satisfactorily, the money will be promptly returned.
- 10. Terms, unless agreed otherwise, cash with the order.
- 11. Remittances may be made by draft, postoffice or express money order, or postal note on
 office at this place, or by registered letter. Currency sent otherwise, by mail, at the risk of the
 sender. If check is sent, enclose 25 cents in addition to pay cost of collection.
- 12. The season for handling plants here (latitude 43°) usually commences in autumn, Oct. 1st to 15th; in spring, about April 1st.

13. For convenience of reference, we arrange both species and varieties alphabetically, rather than in the order of their importance. A few of those especially valuable are printed in CAPITALS, and others, desirable for special purposes, or new and promising, in *italics*.

14. In compliance with the Rules of the American Pomological Society, we drop redundant words from the names of fruits when it can be

done without endangering their identity.

15. Plants will be sent, upon the order of unknown parties, C. O. D., only when the order is accompanied by satisfactory reference, or by at least one-fourth of the amount in cash.

16. Orders will, as nearly as practicable, be

filled in the order of their reception.

17. We never substitute other varieties for those ordered, except by permission of parties ordering. On early orders we will, to the best of our ability, obtain stock not on our list at regular dealers' prices.

18. We offer several new varieties now just being introduced, of which our plants come direct from introducers, and are supplied at their regular rates.

19. Engravings and lithographs of fruits are so generally exaggerated in size or color, or both, and hence so disappointing, that we omit them altogether.

20. It is our special purpose to keep well up with the introduction of promising novelties, for the procuring of which we usually effect arrangements with the original introducers. On orders

for these, if sent prior to April, we will supply plants at introducers' prices. Especial attention is invited to our very full collection of grapes.

21. We are compelled to issue this list before general spring prices are published, and hereby give notice that, these lists to the contrary, notwithstanding, we will make prices as low as those of other and trustworthy establishments, for goods of the same or equal quality.

BLACK, OR NEARLY SO, WHEN RIPE.

Aminia (Rogers 39), hybrid; probably the finest flavored of the Rogers hybrids.

.15 1.00 .20 1.50

August Giant, hybrid, comparatively new; not generally test-d.

.40 3.00 .60 5.00

Barry (Rogers' 43), hybrid, one of the largest and finest of the Rogers hybrids.

.35 3.00 d .50 4.50

Champion, or Tailman, labrusca. large, early, but of only medium quality.

.15 1.00 3.00 .20 1.50 5.00

Clinton, riparia, a single remove from the
Northern frost grape; a good keeper.

.10 .50 2.00 .15 .75 3.00

Concord (Bull), lab., though not of high quality, its many useful qualities render it popular as a market variety.

(.10 .50 -2.00 .15 .75 3.00

Downing (Rickett's), hyb., new, very vigorous and productive; bunch and berry large and of fine flavor.

1.50 12.50 2.00 15.00

Early Dawn (Culbert), hyb., early, but lacks vigor; only desirable to the amateur. Early Victor (Burr), lab., an early, productive and popular new grape.

1.00 7.00 .20 1.50 11.00 . 15

Eaton (J. B. Moore), lab., new; said to be larger, earlier and better than Concord.

7.50 1.00 10.00 .80

Essex (Rogers' 41), hyb., a large table and market grape of good quality.

3.00 .50 - 4.50

Eumelan (Grant), æstivalis, one of the best amateur table grapes.

.35 3.00 17.00 .25 2.00 12.00

Hartford (Steel), lab., very early, hardy and productive: berries soon drop from the bunch.

.12 1.00 .10 .85

Herbert (Rogers' 44), hvb., bunch compact, long; one of the best of these hybrids.

1.25 .25 2.00

Highland (Ricket 's), hyb., originated near Newburgh, N. Y.: cluster very large.

.40 3.75 .30 2.50

Isabella, lab., one of the oldest of the natives; still valued as a long keeper.

1.25 2.50 .20 1.50 3.50

Israella (Grant), lab., of medium quality, pulp tender, bunch very compact.

2.50 .40 3.75

Ives, lab., more popular farther south, fruit colors very early.

.85 2.00 .20 1.25 3.00 .10

Janesville, rip. x, bunch small, compact, plant very hardy, prolific.

.35 3.00 .25 2.00

Merrimac (Rogers' 19), hyb., large, sweet, rich, early, vigorous, productive. .15

.50 4.00 .20 .75 6.00

Mills (Mills), hyb., new, cluster and berry large, rich, sprightly, ripe with Concord. 2.00 15.00

Monroe (L. & B), a fine table grape, vigorous, ripens with Hartford.

ONE YEAR PLANTS. TWO YEAR PLANTS. 1 10 100 1000 1 10 100 1 1000

\$ c. \$ c. \$ c. \$ c. \$ c. \$ c. \$ c.

Moore (J. B. Moore), lab., valued as an early market variety, very hardy.
20 1.50 10.00 .25 2.00 13.00

Nectar (Caywood), lab. x, just introduced, excel-

lent in flavor, very early.

3.00 20.00

3.00 20.00 4.00 30.00 Norton's Virginia, æst., very productive and valuable at the South.

4 .20 1.70 .30 2.50

Secretary (Rickett's), hyb., a superior amateur grape, but not valuable for market.

.50 4.00

ULSTER (Caywood), lab. x, new. The originator says: A better grape than Delaware—as hardy as Concord, should be pruned close to prevent over-bearing.

7.40 3.00 22.00 .50 4.00 35.00 Wilder (Rogers' 4), hyb., very large, sweet, tender, juicy, hardy and vigorous.

V.10 .50 4.00 .15 .75 6.00 WORDEN (Worden), lab., a seedling of Concord, earlier, larger and better than its parent.

.15 1.30 6.00 .20 1.50 8.00

RED AND REDDISH PURPLE GRAPES. Agawam (Rogers' 15), hyb., a good grower, a long keeper, a valuable variety.

₹.10 .50 3.00 .15 .60 5.00

BRIGHTON (J. Moore), hyb., rich, sweet, early, plant vigorous and productive.

√.15 .75 5.00 .20 1.00 9.00

Catawba, lab., o'dest of our natives, still valued for localities where it will ripen.

V.10 1.50 .15 2.00 Delaware, hyb (?) Too generally known and valued to require description.

ONE YEAR PLANTS. TWO YEAR PLANTS.
1 10 100 1000 1 10 100 1 \$ c. \$ c. \$ c. \$ c. \$ c. \$ c. \$ c.

Diana, lab., a long keeper, late, but is sweet when but partially colored.

.75 - 6.00.20 1.00 7.50 .10

Gaertner (Rogers' 14), hyb., large, beautiful, excellent, vigorous, productive.

.75 .10 .15 1.00

Iona (Grant), lab., beautiful, excellent, requires close pruning and good culture.

V .10 .75 3.00 .20 1.00 5.00

Lindley (Rogers' 9), hyb., very handsome and attractive, a little later than Delaware. -.10

.15

Massasoit (Rogers' 3), hvb., fruit tender and sweet, early.

.15 1.00 8.00 .10 .75 6.00

Mouer, originated in Canada, very early, beautiful, hardy, good, productive.

1.50 12.50 2.00 17.00

Perkins, lab., an early, hardy, productive grape of but indifferent quality.

.60 4.00 .10 .15 .90 7.00

Poughkeepsie (Caywood), hyb., an exceedingly promising new grape of high quality. .35 2.50 .50 3.80

Requa (Rogers' 28), hyb., a table grape of medium season.

.15 1.00 .20 1.50

Rochester (E. & B.), lab., sweet, vigorous, rich, vine hardy and productive.

.50

Salem (Rogers' 53), hyb., very large, coppery red, tender, juicy, one of the best of the Rogers hybrids.

.60 4.00 .10 .15 .80 6.00

Vergennes (Green), lab., flavor not rich, but pleasant, vine hardy, vigorous.

.15 1.00 8.00 .20 1.75 15.00

Diamond (J. Moore), lab. x, juicy, almost without pulp, vigorous, productive. 1.50 2.00

1.50 2.00

Duchess (Caywood), hyb., greenish yellow, tender, pulpless, juicy, sweet, rich, vigorous.

75 75 5.00 .20 1.00 7.00

El Dorado (Rickett's), hyb., very hardy, vigorous, exquisite flavor, amber colored.

20 1.50 12.00 .25 2.00 18.00

✓ Elvira (Rommel), rip. x. very productive, quality medium, esteemed at the South.

10 .50 2.00 .15 .75 3.00

Empire State (Rickett's), rip. x, tender, juicy,

sweet, sprightly, ripens with Concord.

√Goethe (Rogers' 1), hyb., a light red grape, rather late for the North.

.20 .75 5.00 .25 1.00 7.00

Hayes (J. B. Moore), lab., vine hardy, vigorous, a fruit of fine quality.

Jessica, hyb., a Canadian seedling, an early table grape, a hardy vine.

40 3.00 25.00 .60 5.00 45.00

Lady (Campbell), lab., an early table grape of high quality, plant hardy.

STRAWBERRIES.

The coming spring we will be prepared to supply fine plants of the varieties quoted, grown upon a young plantation. The quantity will not be large, for which reason it will be safest to order early. Great care has been had during the past year to insure the purity of our stock, by going over the beds when in bloom and weeding out all mixtures. Of a few of the newly introduced varieties our plants come from the introducers. We can only engage to supply these upon orders received as early as the beginning of April.
